Dear Fellow Stockholders,

We are pleased to provide you with the proxy materials for the 2006 Annual Meeting of Stockholders. This year, our meeting will be held on Thursday, **July 6, 2006 at 10:00 a.m. Pacific Time**, at our facilities located at 157 Technology Drive, Irvine, California, 92618.

These past few years have been an exciting part of our Company's history as we have recapitalized the Company and built an enviable product pipeline, with 3 late-stage drugs that are potentially within a year or two of FDA approval. We believe we are poised for a transformation from a drug development company to one with commercial products generating meaningful revenues.

At this meeting, we are asking for votes from stockholders on two important matters. The first matter is the election of our six Board of Director members. These individuals bring significant knowledge, experience, contacts and oversight to guide the Company in its growth while ensuring that the Company is fully compliant with its legal and fiduciary responsibilities to the stockholders. The second matter is a vote to increase our authorized number of shares of common stock from 50 million to 100 million. We believe that this increase in authorized equity provides the Company with flexibility in pursuing opportunities for adding shareholder value. Details on these matters are covered in this proxy statement.

Your vote is important. I encourage you to sign and return your proxy card so that your shares of stock will be represented and your votes cast at the meeting, even if you cannot attend. If you have any further questions, please contact our Vice President—Finance, Mr. Shyam Kumaria, at Spectrum Pharmaceuticals, Inc. 157 Technology Drive, Irvine, CA 92618.

The Board of Directors and the employees of Spectrum Pharmaceuticals thank you for your consideration and support. We hope to see you at this year's annual meeting.

Sincerely,

RAJESH C. SHROTRIYA, M.D.

Officer and President*

PROXY STATEMENT

This proxy statement contains information related to the 2006 Annual Meeting of Stockholders of Spectrum Pharmaceuticals, Inc. (the “Company,” “Spectrum,” “we” or “us”) to be held on Thursday, July 6, 2006, beginning at 10:00 a.m. Pacific Time, at our corporate office located at 157 Technology Drive, Irvine, California, 92618, and at any postponements or adjournments thereof. This proxy statement and the accompanying proxy is first being mailed to our stockholders on or about June 6, 2006.

QUESTIONS AND ANSWERS ABOUT THE 2006 ANNUAL MEETING AND VOTING

What is the purpose of the Annual Meeting?

At our Annual Meeting, stockholders will act upon the matters outlined in the notice of Annual Meeting on the cover page of this proxy statement, including the election of six directors, each for a term of one year, and the amendment of our certificate of incorporation to increase the authorized number of shares of common stock from 50 million to 100 million shares. In addition, following the Annual Meeting, management will report on the performance of the Company during fiscal 2005 and early 2006, and respond to questions from stockholders.

Who is entitled to vote at the Annual Meeting?

Only stockholders of record at the close of business on May 8, 2006, the record date for the Annual Meeting, are entitled to receive notice of and to participate in the Annual Meeting. If you were a stockholder of record on that date, you will be entitled to vote all of the shares that you held on that date at the Annual Meeting, or any postponements or adjournments of the Annual Meeting. A list of such stockholders will be available for examination by any stockholder at the Annual Meeting and, for any purpose germane to the Annual Meeting, at the principal business office of the Company, 157 Technology Drive, Irvine, California, 92618, for a period of ten days prior to the Annual Meeting.

How many shares of the Company’s Common Stock and Preferred Stock are outstanding and what are the voting rights of the holders of those shares?

On May 8, 2006, the record date for the Annual Meeting, 24,320,802 shares of the Company’s common stock (the “Common Stock”), 127 shares of the Company’s Series D 8% Cumulative Convertible Voting Preferred Stock (the “Series D Preferred Stock”) and 291 shares of the Company’s Series E Convertible Voting Preferred Stock (the “Series E Preferred Stock”) (the Series D Preferred Stock and Series E Preferred Stock together, the “Preferred Stock”) were outstanding. Each of the holders of the outstanding shares of the Common Stock will be entitled to one vote on each matter for each share of

Common Stock held. Each of the holders of the Preferred Stock has full voting rights and powers equal to the voting rights and powers of holders of Common Stock and shall be entitled to vote with respect to any question upon which holders of Common Stock have the right to vote, voting together with the holders of Common Stock as one class. Each holder of the Preferred Stock shall be entitled to the number of votes equal to the number of shares of Common Stock into which such shares of Preferred Stock could be converted on the record date at the then current conversion value as determined pursuant to the Certificate of Designations, Rights and Preferences of the Series D and Series E Preferred Stock ("Certificate of Designations"), which results in 4,255 votes per share of Series D Preferred Stock and 2,000 votes per share of Series E Preferred Stock on May 8, 2006. However, pursuant to the Certificate of Designations, the maximum number of votes that each holder, or group of holders as defined in Section 13D of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), of shares of Preferred Stock shall be entitled to shall not exceed 4.95% of the total number of shares of Common Stock then outstanding. Therefore, the holders of the Series D Preferred Stock shall have a total of 276,192 votes and the holders of the Series E Preferred Stock shall have a total of 342,000 votes on each matter at the Annual Meeting, for a total of 24,938,994 votes that may be cast by all stockholders at the Annual Meeting. However, pursuant to Delaware law, Proposal No. 2 will require, in addition to the voting rights discussed above, the vote of the holders of shares of Common Stock voting separately as a class.

Who can attend the Annual Meeting?

All stockholders as of the record date, or their duly appointed proxies, may attend the Annual Meeting. Registration will begin at 9:00 a.m., and seating will begin immediately thereafter. If you attend, please note that you may be asked to present valid picture identification, such as a driver's license or passport. Please also note that if you hold your shares in "street name" (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date and check in at the registration desk at the Annual Meeting.

What constitutes a quorum?

The presence at the Annual Meeting of the holders of a majority of the outstanding shares of the Common Stock and the number of shares of Common Stock for which the holders of the shares of Preferred Stock have voting rights, present in person or by proxy and entitled to vote, will constitute a quorum, permitting the Annual Meeting to conduct its business. Proxies marked "withheld" as to any director nominee or "abstain" as to a particular proposal and broker non-votes are counted by the Company for purposes of determining the presence or absence of a quorum at the Annual Meeting for the transaction of business. Broker non-votes are shares that are not voted by the broker who is the record holder of the shares because the broker is not instructed to vote on such matter by the beneficial owner and the broker does not have discretionary authority to vote on such matter.

How do I vote?

If you complete and properly sign the accompanying proxy card and return it to the Company, it will be voted as you direct. If you are a registered stockholder (that is, if you hold your stock in certificate form or otherwise directly and not through a broker or other nominee) and attend the Annual Meeting, you may deliver your completed proxy card in person. We encourage you, however, to submit the enclosed proxy card in advance of the Annual Meeting. In addition, ballots will be available for registered stockholders to vote in person at the Annual Meeting. Stockholders who hold their shares in "street name" may vote in

person at the Annual Meeting only by obtaining a proxy form from the broker or other nominee that holds their shares.

Can I vote by telephone or electronically?

If you are a registered stockholder you may not vote by telephone or electronically since we do not have that capability. If your shares are held in "street name," i.e., by a broker or other nominee, please check the voting instruction card you received from your broker or nominee or contact your broker or nominee to determine whether you will be able to vote by telephone or electronically and what deadlines may apply to your ability to vote your shares by telephone or electronically.

Can I change my vote after I return my proxy card?

Yes. As a registered stockholder, you may change your vote at any time before the proxy is voted at the Annual Meeting by filing with the Secretary of the Company either a notice of revocation or a duly executed proxy bearing a later date. The powers of the proxy holders will be suspended if you attend the Annual Meeting in person and request that your proxy be suspended, although attendance at the Annual Meeting will not by itself revoke a previously granted proxy. If your shares are held in "street name," please check the voting instruction card you received from your broker or nominee or contact your broker or nominee to determine how to change your vote.

What are the Board's recommendations?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is set forth together with the description of each proposal in this proxy statement. In summary, the Board recommends a vote:

- **FOR** election of the six director nominees, each for a term of one year (see Proposal 1); and
- **FOR** approval of an amendment to our certificate of incorporation to increase our authorized number of shares of common stock (see Proposal 2).

With respect to other business that may properly come before the Annual Meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion.

What vote is required to approve the Proposals?

For Proposal No. 1, the director nominees receiving the highest number of affirmative votes cast, in person or by proxy, at the Annual Meeting, up to the number of directors to be elected at the Annual Meeting (six directors), will be elected as directors. Accordingly, abstentions will have no effect in determining which directors receive the highest number of votes. The election of directors is a matter on which a broker or other nominee has discretionary voting authority. Accordingly, no broker non-votes will result from this proposal.

For Proposal No. 2, the following will be required for approval: (1) the affirmative vote of the holders of a majority of the shares (i.e., Common Stock and Preferred Stock voting together) represented at the Annual Meeting, in person or by proxy, and entitled to vote on the proposal; and (2) the affirmative vote of the holders of a majority of the total outstanding shares of common stock voting separately as a class. A

properly executed proxy marked "Abstain" with respect to any such matter will not be voted, although it will be counted as present and entitled to vote for purposes of the proposal with respect to the vote by the holders of the shares represented at the Annual Meeting. Accordingly, an abstention will have the effect of a vote against the proposal for purposes of both vote requirements (1) and (2) discussed above. Brokers have discretion to vote on an increase in the authorized number of shares of common stock, thus no broker non-votes will result from Proposal 2.

STOCK OWNERSHIP

Based on information provided to us by the holders, the following table shows the amount of our Preferred Stock and Common Stock beneficially owned on May 8, 2006 (unless otherwise indicated) by holders of more than 5% of the outstanding shares of any class of our voting securities, other than with respect to Dr. Rajesh C. Shrotriya (our Chairman of the Board, Chief Executive Officer and President), whose ownership is included on the second table below. Management of the Company has the primary responsibility for the Company's consolidated financial statements as well as the Company's financial reporting process, principles and internal controls. The independent auditor is responsible for performing an audit of the Company's financial statements and expressing an opinion as to the conformity of such consolidated financial statements with generally accepted accounting principles.

In this context, the Audit Committee has reviewed and discussed the audited financial statements of the Company as of and for the year ended December 31, 2005 with management and the independent auditors. These reviews included discussion with the outside auditors of matters required to be discussed pursuant to Statement on Auditing Standards No. 61 (Communication with Audit Committees). In addition, the Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect, and it has discussed with the auditors their independence from the Company.

Based on the reviews and discussions described above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005, for filing with the Securities and Exchange Commission.

REPORT OF THE COMPENSATION COMMITTEE

The following Report of the Compensation Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

About the Compensation Committee

The Compensation Committee is comprised of three directors each of whom is “independent” within the meaning of the NASDAQ director independence standards, a “non-employee director” within the meaning of Rule 16b-3 of the Exchange Act and an “outside director” under Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”). The Compensation Committee’s responsibilities include, but are not limited to: reviewing and evaluating the Company’s compensation arrangements, reviewing the compensation philosophy of the Company, determining the compensation of the chief executive officer (CEO) and other executive officers of the Company, and reviewing and approving bonus compensation plans, including stock option and employee stock purchase plans. A copy of the charter for the Compensation Committee was filed with the Company’s proxy statement for 2004.

The Committee determines the compensation of the Company’s CEO independently, and the compensation of other executive officers in consultation with the CEO.

Compensation Philosophy

The rapid growth in recent years of the Company’s pipeline of products, and its aggressive plans for future growth, has shaped the Committee’s executive compensation philosophy. This philosophy, including as applied to the CEO, is to attract and retain professionals of the highest caliber, capable of leading the Company to fulfillment of its ambitious business objectives by offering highly competitive compensation opportunities that reward executives for their individual contributions towards the Company’s short-term and long-term objectives. Competition for attracting the best talent in the pharmaceutical industry is very intense, especially in Orange County, California, where the industry has only a small presence and the cost of living is very high. Accordingly, executive officers are eligible for competitive salary adjustments, cash bonuses and equity compensation based upon periodic evaluations of individual and Company performance.

The Committee believes that its compensation philosophy aligns the interests of executive officers with those of the Company’s stockholders, and is necessary to incentivize individual executives to peak performance in advancing the Company’s business objectives.

Key Elements of 2005 Executive Compensation

Because we are still in the process of developing our proprietary products and so have not yet brought any such products to market, the use of traditional performance standards, such as profit levels and return on equity, are not appropriate in our evaluation of executive officer performance. Therefore, executive officer compensation is based primarily on advancement of the Company’s business objectives, including the achievement of product development milestones, the acquisition of new products, the maintenance of adequate financial resources, and the initiation and continuation of corporate collaborations, as well as individual contributions and achievement of individual business objectives by our executive officers. The

Company's performance and the performance of our executive officers are measured by reviewing and determining the extent to which corporate and individual objectives have been accomplished.

- *General:* The Compensation Committee evaluated the Company's 2005 performance as excellent insofar as the Company continued to execute on its strategy that was initiated in late 2002. The Committee believes that the Company achieved all of its business objectives, and more, during 2005. Some of the important accomplishments during 2005 included: strengthening the financial condition of the Company by raising over \$42 million in equity financing; the acquisition of three proprietary drugs; the launch and completion of clinical trials, some significantly ahead of schedule; the acceptance by the United States Food and Drug Administration (FDA) of five Abbreviated New Drug Applications (ANDAs), including one under Paragraph IV certification; the maintenance of tight control over the Company's cash burn rate; and the enhancement of the Company's public profile, resulting in an expansion of the investor base, increased analyst coverage, and recognition from two healthcare indexes.
- *Base Salary and Bonuses.* The base salaries for 2005 for the executive officers were set at the end of 2004 based upon the factors that were discussed in our report in last year's proxy statement. At the end of 2005, the compensation of each executive officer was reviewed by the Committee, with reference to the executive's level of responsibility, experience and individual performance, the Company's performance, and also by reference to salary ranges paid to executives with comparable duties in our peer group of companies provided to the Committee by an independent compensation-consulting firm. Based upon its review, the Committee awarded bonuses for 2005 contributions and increased the salary levels of the Company's executive officers for 2006 due to their excellent performance in advancing the Company's business objectives.
- *Equity Incentive Awards.* Based upon the excellent performance in 2005, and as an incentive for continued excellence in the future, at the end of 2005 the Committee granted to executive officers, equity incentive awards vesting in four equal yearly amounts. The Committee endorses the position that granting equity incentive awards, including stock options and restricted stock, to the Company's executive officers (stock options are a benefit offered to all employees) can be very beneficial to stockholders because it aligns management's and stockholders' interests in the enhancement of stockholder values. An executive officer receives value from these grants only if he or she remains employed by the Company during the vesting period, and, with regard to stock options, only if the Company's common stock appreciates. In addition, equity incentive awards are an important compensation tool to utilize in attracting and retaining high caliber professionals. In step with contemporary thinking that restricted stock awards are a better motivating tool than stock options, the Committee awarded a mix of restricted stock awards and stock options in 2005. In determining the number of shares subject to an equity incentive award, the Committee takes into account the officer's position and level of responsibility, the officer's performance, the officer's existing stock and unvested stock holdings and the competitiveness of the executive officer's overall compensation arrangements, including equity awards. The Company also maintains a 401(k) Plan to provide retirement benefits through tax deferred salary deductions for all employees. Beginning in 2005, the Company began making matching employee contributions in shares of the Company's common stock in order to encourage employees to save for retirement.

- *Chief Executive Officer Compensation.* The Committee subscribes to the notion that an emerging growth company, like Spectrum Pharmaceuticals, Inc., achieves success and ultimately substantial returns for its stockholders, based on the vision and dedication of its management team, especially its CEO. Dr. Rajesh C. Shrotriya, the Company's CEO and President, set forth a new vision for Spectrum when he was appointed CEO in 2002 and the Committee believes he, and the team he has assembled, has done an excellent job in implementing that vision over the past three years. In addition, Dr. Shrotriya's qualifications as a scientist and his ability to lead the Company and to manage its scientific programs and business strategy make him critical to the continued successful implementation of that vision. The Compensation Committee considered these factors, as well as the same factors discussed above under "General" in setting the compensation of Dr. Shrotriya. The Committee also made reference to a survey of the compensation of CEOs of similarly sized companies in the pharmaceutical industry in order to ensure that the total compensation paid by the Company to Dr. Shrotriya, including salary, bonus, equity incentive awards, benefits and other compensation, was highly competitive. The Committee believes that a highly competitive compensation package is necessary because of the importance of a CEO to a small emerging growth company and in particular, one with the background, experience and track record of Dr. Shrotriya. For 2005, the Committee determined that Dr. Shrotriya met all of the goals set for him at the start of the year, and more; his outstanding contributions are reflected in the Company's achievements in 2005, including: strengthening the financial condition of the Company by raising over \$42 million in equity financing; the acquisition of three proprietary drugs; the launch and completion of clinical trials, some significantly ahead of schedule; the acceptance by the FDA of five ANDAs, including one under Paragraph IV certification; the maintenance of tight control over the Company's cash burn rate; and the enhancement of the Company's public profile, resulting in an expansion of the investor base, increased analyst coverage, and recognition from two healthcare indexes. In recognition of his continued excellent performance during 2005, and as motivation for continued excellence in the future, Dr. Shrotriya was awarded a cash bonus of \$250,000 for 2005, and, in addition, on January 1, 2006, was awarded 80,000 shares of restricted stock and granted an option to purchase up to 200,000 shares of our Common Stock at an exercise price of \$4.23 per share, the fair value of our stock on the date of grant. Both the restricted stock awards and stock options vest in four equal yearly amounts, with the first vesting on the date of grant. Based upon its review, the Committee maintained the base salary of Dr. Shrotriya, unchanged since January 1, 2004, at \$500,000 per annum for 2006. More information is available in the Executive Compensation section of this proxy statement.

Policy with Respect to Section 162(m). Section 162(m) of the Code currently imposes a \$1 million limitation on the deductibility, for Federal income tax purposes, of certain compensation paid to each of our five highest paid executives. In light of the Company's significant net operating losses, Section 162(m) is not considered to be a significant factor for the foreseeable future.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Compensation Committee is comprised of Drs. Vida, Krassner and Mehta. None of the members of the Board's Compensation Committee is or has been an officer or employee of the Company. None of the Company's executive officers has served as a director or Compensation Committee member of any other entity, any of whose executive officers served as a director or Compensation Committee member of our board of directors.

EMPLOYMENT AND SEVERANCE AGREEMENTS

We have entered into employment agreements with two of our Named Executive Officers, Dr. Shrotriya and Dr. Lenaz. The agreements require each executive to devote his full working time and effort to the business and affairs of the Company during the term of the agreement. The agreements provide for an annual base salary with annual increases, periodic bonuses and option grants as determined by the Compensation Committee of our Board of Directors.

Each officer's employment may be terminated by us with or without cause as defined in the agreement. The agreements provide for certain guaranteed severance payments and benefits if the officer's employment is terminated without cause, if the officer's employment is terminated due to a change in control or is adversely affected due to a change in control and the officer resigns or if the officer decides to terminate his employment due to a disposition of a significant amount of assets or business units. The guaranteed severance payment includes a payment equal to the officer's annual base salary and other cash compensation, and any approved bonus. The officer is also entitled to medical, dental and other benefits for two years following termination. In addition, all options held by the officer shall immediately vest and will be exercisable for one year from the date of termination; provided, however, if the Board determines that the officer's employment is being terminated for the reason that the shared expectations of the officer and the Board are not being met, in the Board's judgment, then the options currently held by the officer will vest in accordance with their terms for up to one year after the date of termination, with the right to exercise those options, when they vest, for approximately thirteen (13) months after the date of termination. The agreements also provide that, upon his retirement, all options held by the officer will become fully vested.

Following termination of the officer's employment, the officer shall be permitted to continue in his usual occupation and shall not be prohibited from competing with us except during the two (2) year severance period and in the specific industry market segments in which we compete and which represent twenty percent (20%) or more of our revenues.

- (1) We have three stock incentive plans: the 1991 Stock Incentive Plan (1991 Plan), the 1997 Stock Incentive Plan (1997 Plan) and the 2003 Amended and Restated Incentive Award Plan (2003 Plan), (collectively, the Plans). As of December 31, 2005, we are not granting any more options pursuant to the 1991 and 1997 Plans. The 2003 Plan authorizes the grant, in conjunction with all of our other Plans, of incentive awards, including stock options, for the purchase of up to a total of 30% of our issued and outstanding stock at the time of grant. Thus, the authorized and available shares may fluctuate over time.
- (2) The number represents 726,000 shares of Common Stock issuable upon exercise of warrants issued to non-employees of the Company under equity compensation plans approved by our Board of Directors that we believe are not required to be approved by our stockholders pursuant to the rules of the NASDAQ Stock Market. We issued these warrants in circumstances that enable us to adequately compensate, without the payment in cash, for outside consultant services, primarily placement agents

who assist us in raising funds for our operations, in order to conserve our cash for operating activities. The number of securities remaining available for future issuance under these types of equity compensation plans is zero; however, the Board of Directors may approve additional issuance of warrants under circumstances that it decides are appropriate. These warrants are typically exercisable for five years and have equitable anti-dilution rights for stock splits, stock dividends, reclassifications, compulsory share exchanges, distributions of indebtedness, assets, rights, warrants or subscriptions, merger, consolidation, sale of assets, tender offer or other exchanges of the entire class of Common Stock.

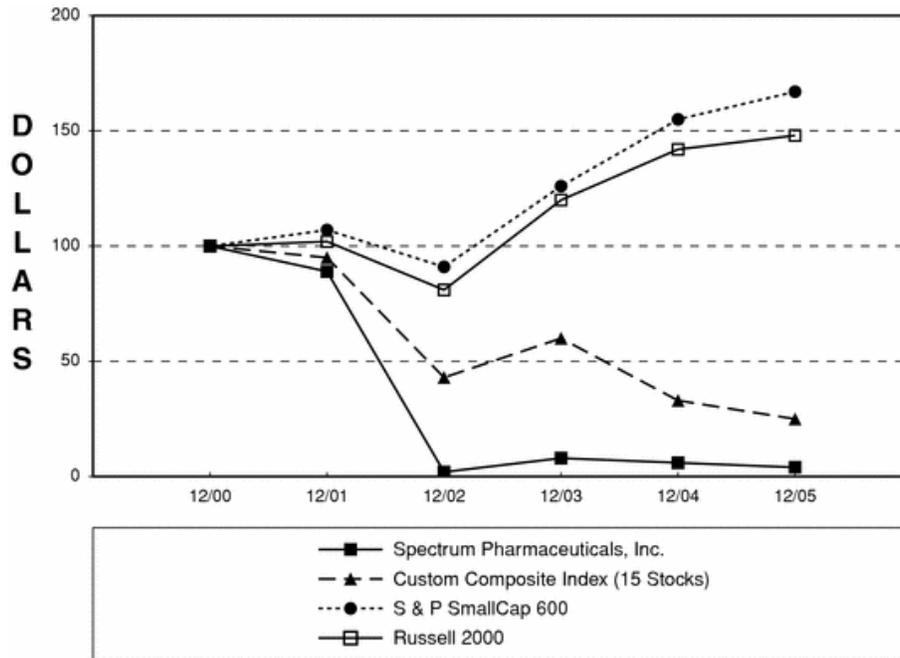

The number does not include warrants issued to investors in connection with financing transactions. As of December 31, 2005, there were outstanding investor warrants to purchase up to an aggregate of 9,194,703 shares of our Common Stock, with a weighted average exercise price of \$7.26.

Further details regarding warrants issued by the Company are included in footnotes 8 and 9 to our audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005.

PROPOSAL 2—APPROVAL OF AMENDMENT TO CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED COMMON STOCK

We are currently authorized to issue up to a total of 55,000,000 shares of capital stock, consisting of 5,000,000 shares of preferred stock, par value \$.001 per share (the "Preferred Stock"), and 50,000,000 shares of common stock, par value \$.001 per share (the "Common Stock"). Our Board of Directors has unanimously approved, subject to stockholder approval, a proposed amendment to our certificate of incorporation that would increase the authorized shares of our Common Stock from 50,000,000 shares to 100,000,000 shares (the "Amendment"). The Amendment will not change the amount of authorized shares of Preferred Stock, which will remain at 5,000,000 shares. The text of the form of proposed amendment to our certificate of incorporation is attached to this Proxy Statement as Appendix A.

Our board of directors believes that the Amendment will help accelerate the growth of our business and is necessary to provide us with a sufficient number of shares for general corporate purposes including, without limitation, equity financings, to position us to take advantage of acquisition opportunities, to facilitate the consummation of license, development or other similar agreements, establishing strategic relationships and providing equity incentives to employees under the Company's compensation plans. No further action by shareholders would be necessary prior to the issuance of additional shares of our Common Stock except as may be required by law or by the applicable regulations of the Nasdaq National Market.

Other than what we have reserved for future issuance discussed below, our board of directors has no present plans for issuing any of the additional shares of Common Stock which would be authorized by the Amendment. The proposed additional shares of Common Stock would be a part of the existing class of our Common Stock and, if and when issued, would have the same rights and privileges as the shares of Common Stock presently issued and outstanding.

The proposed increase in the authorized number of shares of Common Stock could have a number of effects on the stockholders, depending upon the exact nature and circumstances of any actual issuances of the authorized shares. The increase could have an anti-takeover effect, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of Spectrum more difficult. In addition, an issuance of additional shares could have an effect of diluting existing stockholder earnings per share, book value per share and voting power.

As of May 8, 2006, there were approximately 24.3 million shares of Common Stock outstanding, approximately 11.0 million shares of Common Stock issuable upon conversion of outstanding shares of preferred stock and warrants, approximately 4.1 million shares of Common Stock issuable upon exercise of outstanding options, approximately 3,000 shares of Common Stock issuable for dividends on the preferred stock, and approximately 2.7 million shares reserved for future issuance under our equity compensation plans, totaling approximately 42.2 million shares of Common Stock outstanding or reserved for issuance. In addition, the Company could issue shares of Common stock as contingent milestone obligations pursuant to the terms of its licensing and asset acquisition agreements. While some of such Common Stock issuances would be determined when, and if, the contingent milestones were achieved, such potential contingent issuances aggregated approximately 5 million shares, based on the Common Stock price as of May 8, 2006.

The Amendment would become effective upon the filing with the Delaware Secretary of State of a certificate of amendment to our certificate of incorporation. If the Amendment is approved by the

required vote of our shareholders, we intend to file the certificate of amendment as soon as practicable after such approval is obtained.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE **FOR** THE APPROVAL OF THE AMENDMENT TO THE CERTIFICATE OF INCORPORATION.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers and directors, and persons who beneficially own more than ten percent of our Common Stock, to file initial reports of ownership and reports of changes in ownership with the SEC and the National Association of Securities Dealers, Inc. Executive officers, directors and persons who beneficially own more than ten percent of our Common Stock are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely upon our review of the copies of reporting forms furnished to us, and written representations that no other reports were required, we believe that all filing requirements under Section 16(a) of the Exchange Act applicable to our directors, officers and any persons holding 10% or more of our Common Stock with respect to our fiscal year ended December 31, 2005, were satisfied on a timely basis, except as follows: Mr. Fulmer failed to file an initial report on Form 3 due within 10 days of being appointed as a director of our Board of Directors on September 20, 2005. Mr. Fulmer filed a Form 3 on December 7, 2005.
